ABOUT US

US Blanks was born in 2007, in Los Angeles, So. Cal, the city we continue to call home.

A woman with dark hair, wearing a white sleeveless top and light grey pants, stands in a field of tall green grass and purple flowers. She is looking off to the side. The background shows a clear blue sky and distant hills.

ABOUT US

Our mission is to create high quality knitwear, locally and sustainably, in retail-ready but classic silhouettes.

A woman with long dark hair, wearing a light blue short-sleeved shirt, is looking down and slightly to her right. She is standing outdoors in a garden or park setting with green foliage and trees in the background. The lighting is bright, suggesting daytime.

ABOUT US

Our entire collection is designed and crafted in America. From concept and development, to fabric production at our textile mill, and in-house garment cut and sew.

ABOUT US

We haven't taken the easy path but we've always taken the high road. We continue to create our product domestically and refuse to cut corners on the quality of our materials and production.

ABOUT US

We support slow-fashion, quality,
and kindness.

We love music, animals and the
planet, and “we make our own
rules”.

PROJECT US SUSTAINABILITY

PROJECT US is an initiative created by US Blanks.

We partner with causes, charities, not-for-profits and other well-intentioned organizations, helping them raise awareness and funds.

We sponsor events, donate t-shirts and offer deep discounts, and use our platform to spread the love.

As part of Project US and in an effort to minimize our environmental impact, US Blanks keeps all manufacturing local.

We cut, sew, dye and finish all our styles in LA, helping to create jobs, and support the local community.

We also continue to expand our 100% cotton fleece collection as an alternative to the tri-blend and cotton/polyester fleeces commonly sold, and reduce the amount of micro-plastics being released into our oceans!

PROJECT US SUSTAINABILITY

We've also done a deep dive into sourcing sustainable fabrics, offering styles in organic cotton, Modal® from beech trees, hemp yarn blends, and upcycled and recycled fabric.

Our cutting floor scraps are collected for upcycling, and our wash test yards are taken to the North Central Los Angeles Animal Shelter where they are used for bedding.

Many studies show the average t-shirt travels over 15,000 miles from its raw material stage, through the supply chain, and finally to the back of an average US consumer. Our fabric travels less than 5 miles from our knitting mill to us!

So, don't just buy more - buy local, buy sustainable, and just buy better.
