# FABRIC GUIDE

PERFORMANCE GEAR THAT ACTUALLY PERFORMS.

## PERFORMANCE MICRO MESH

100% polyester birdseye micro-mesh knit jacquard

Engineered with an ultra-soft micro-mesh, creating a minimally textured surface, ideal for printing team logos.

## PERFORMANCE TRIBLEND JERSEY

50% polyester, 37.5% combed and ring-spun cotton, 12.5% rayon

The first ever high endurance performance triblend fabrication engineered with extreme performance capabilities, but feels like a cotton tee.

## PERFORMANCE FLEECE

60% combed and ring-spun cotton, 40% polyester fleece

A performance fleece engineered for pre and post workout warmth.

## BAMBOO JERSEY

67% bamboo lyocell, 29% combed and ring-spun cotton, 4% spandex jersey

Exceptionally soft and durable fabric, built with the natural performance properties of bamboo.

## DRI-BLEND JERSEY

60% combed and ring-spun cotton super soft jersey knit 40% polyester microfiber

A poly-cotton blend engineered with powerful performance properties but feels like your favorite cotton tee.

## POLYESTER INTERLOCK

100% polyester interlock

This smooth and sleek performance fabric features dry wicking and antimicrobial technology, and a tight cross knit for function and mobility, ideal for printing team logos.

## NYLON SPANDEX

88% nylon 12% spandex (W5009, W5019, W2022)

90% nylon 10% spandex (W6507, W2002, W7000)

This smooth and silky blend makes a great performance fabric with dry wicking and anti-microbial technology. Stretch Flex™ technology provides added freedom of movement and lasting recovery.

## POLY SPANDEX COMPRESSION

83% polyester 17% spandex jersey

Dry wicking and antimicrobial compression fabric maximizes wearability.

## POLYESTER DOUBLE KNIT INTERLOCK

100% polyester double knit interlock

This smooth and sleek performance fabric is exceptionally durable and features dry wicking and antimicrobial technology.
