LIVE UNCONDITIONALLY.

2017 CATALOG

BRAND HERITAGE

Ever since the inception of the Duofold brand over 100 years ago, the brand has remained dedicated to providing the warmth, comfort, and performance you need to Live Unconditionally. Beecher Crouse's quest for the perfect balance of the comfort of cotton and the warmth of wool sparked the creation of the Duofold brand and the revolution known now as the base layer category in 1906.

Now with Duofold® by Champion®, your greatest adventures certainly lie ahead in 2017 with two distinct collections engineered to shield you from the elements and allow you to fulfill your outdoor passions without distraction.

- **Originals** stays true to our legendary bi-ply fabric platform that has kept outdoor enthusiasts going for decades.
- **Varitherm®** high performance baselayer infuses Champion athleticwear's signature design to combine thermal protection with moisture management technology.

ORIGINALS

The Original Duofold Technology is the hallmark of this collection. These style families utilize the same tried-and-true fabrication technique that fuses two layers of fabric to create the feel of a single layer while delivering warmth of three!

One of our favorites, the union suit, turns 79 this year extending its run as base layer's signature fabrication. This timeless style is gaining momentum with a new generation that is modifying it to match their style and pairing it with high-fashion accessories.

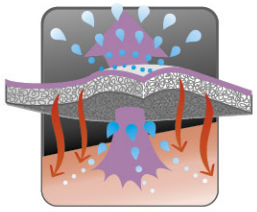
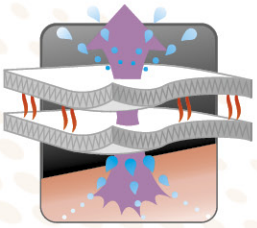
TECHNOLOGY ILLUSTRATIONS

KFX
KCB



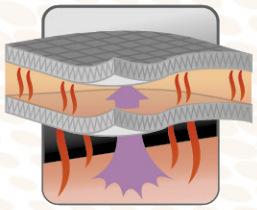
1. Brushed Back – The brushed fabric helps keep body heat from leaving your body while our X-Temp™ Technology dries faster as your body heat rises keeping you warm and dry in all situations.

KEW



2. Original Duofold Technology with Wicking – The warmth of three layers in the feel of one! This fabrication technique plates two layers of fabric together trapping a layer of thermal insulation between to create the feel of a single layer. In our Expedition series, the fabric is treated with both wicking and anti-odor finishes.

KMW
KMO
KWM
KMMU



3. Original Duofold Technology – Our signature. This technique launched the brand over 100 years ago and is still keeping you warm without weight.

ICONOGRAPHY

VAPOR TECHNOLOGY
Quick drying for superior comfort

VAPOR WITH X-TEMP™ TECHNOLOGY
Dries faster as your body heat rises so you can always keep your cool.

QUICK DRYING
Quickly evaporates moisture

ODOR RESISTANT
Antimicrobial yarns resist odor

MOISTURE CONTROL
Wicking properties to help keep you warm and dry

STRETCH
Fit that moves with you and retains shape

WOOL
Natural insulation for added warmth

DOUBLE-LAYER CONSTRUCTION
Two layers of fabric knit together for a thermal barrier against the cold

SOFT
Fabric with softness of cotton

BRUSHED BACK
Brushed inside for added warmth

WICKING VAPOR
